

THE PRINCE AKATOKI
LONDON

SUSTAINABILITY MEASURES

Measures currently in place

- Motion detector lights
- LED lighting used throughout the hotel
- TV systems are all lower energy, from B to A+.
- Building Management System (BMS) control temperature system which does not exceed 30 degrees.
- Double-glazed windows.
- Admin departments going paperless.
- Heating Exchange Unit-reclaims hot and cold air for energy (for gas boilers).
- Food waste recycling.
- Suppliers to deliver in sustainable containers to minimize the use of plastic.
- Recycle coffee capsules in the bedroom.
- Reducing single-use plastic in room amenities.
- Linen exchange program.
